

THE TRANSFORMATIONAL LEADER

Are you ready for your leadership to evolve?

The Transformational Leader: Pillars for Clinical Leadership (TL) is a 6-month training and coaching program designed for our network's Associate Medical Directors. TL offers a learning cooperative whereby you enhance your capacity to motivate teams to adapt nimbly to rapid changes, influence executive strategy and financial decisions, communicate with empathy and clarity, and maintain boundaries to alleviate anxiety and overwhelm. It is our intention that you finish the program feeling more confident, more connected to your peers, and re-energized by your service.

Transformational Leader Pillars:

Peer Network

Create a learning cooperative with Associate Medical Directors from across the network who are committed to enhancing their leadership skills.

Workshops

Interactive trainings led by experienced nonprofit healthcare leadership facilitators on core leadership topics such as change management, finance and budgeting, influence, and more.

Executive Coaching

Select from vetted coaches with experience in healthcare and medicine to receive individualized support. Incorporate 360-review findings and leadership style assessment results to develop a professional growth design.
